

MUHAMMED RISHAD CH

Kerala, India | chrishad099@gmail.com | +91 8078922354 | linkedin.com/in/rishadch

Mobile Application Developer skilled in Flutter, React Native, and Native Android (Java/Kotlin). Experienced in building high-performance, user-centric apps with scalable architecture and clean UI/UX. Proficient in integrating AI/ML features, REST APIs, and Firebase. Strong data science foundation enabling predictive, data-aware mobile solutions.

EDUCATION

Data Science & Artificial Intelligence — EXCELR Solutions, Bangalore 2024 – 2025
Bachelor of Computer Application (BCA) — Concord Arts & Science College, Muttannur 2021 – 2024 | GPA: 5.61

TECHNICAL SKILLS

Languages: Dart, Java, Kotlin, JavaScript, Python, HTML
Frontend: React.js, Next.js, Bootstrap
Databases: PostgreSQL, Firebase Firestore, SQLite, MySQL, MongoDB
Cloud & Tools: Firebase, AWS (EC2/S3), Docker, Git, Postman
Mobile: Flutter, React Native, Native Android (Java/Kotlin)
Backend: Node.js, Express, Django, FastAPI, REST APIs
AI/ML: TensorFlow, PyTorch, Keras, Scikit-learn, PyCaret, NLP
Architecture: Clean Architecture, Provider, BLoC, CI/CD, Socket.IO

PROFESSIONAL EXPERIENCE

Full Stack Developer Mar 2025 – Present
Pazel Global Technologies
Project: Jolee — Real-time Service Marketplace App
Tech: Flutter, Node.js, Express, PostgreSQL, Knex.js, Socket.IO, Provider, JWT, REST API

- Designed and developed a premium Flutter frontend with adaptive light/dark themes and Provider state management.
- Built scalable RESTful API backend using Node.js & Express — authentication (JWT), job listings, payments, and reviews.
- Designed PostgreSQL database models with Knex.js migrations for secure, optimized data access.
- Integrated Socket.IO for real-time chat and live notification updates between users.

Full Stack Developer Jun 2025 – Mar 2026
BSH Technologies
Project: Eventify — Event Discovery & Booking App
Tech: Flutter, Django, Django REST Framework, JWT, PostgreSQL, Django Admin, Git

- Developed cross-platform Flutter frontend with responsive layouts, smooth animations, and reusable UI components.
- Implemented RESTful APIs using Django + DRF — user authentication (JWT), event listings, and booking logic.
- Designed database models for users, events, and bookings with clean relationships and scalable structure.
- Created Django Admin workflows and documented API endpoints for seamless front-end integration.

INTERNSHIPS

Artificial Intelligence Intern Mar 2025 – Jun 2025
EXCELR Solutions, Bangalore
Built an AI-powered finance platform with fraud detection (IsolationForest), NLP sentiment analysis, and portfolio rebalancing using FastAPI, Python, and Scikit-learn.

Software Development Engineer Intern May 2025 – Jun 2025
Bluestock Fintech
Built a full-stack IPO platform with REST API, user authentication, IPO listings, and AWS EC2 deployment using FastAPI/Django and JavaScript.

Data Science Intern Jun 2024 – Apr 2025
EXCELR Solutions, Bangalore
Developed a solar power prediction system using ML models (XGBoost, Scikit-learn) with a Streamlit dashboard, achieving 24% reduction in energy waste.

FREELANCE EXPERIENCE

Freelance Flutter Developer

Jun 2025 – Present

Car Rental Admin App | Flutter, Firebase, PDF Generation, Image Compression

Cross-platform admin app for car rental management — client/vehicle management, rental tracking, expense monitoring, PDF rental agreements, and secure multi-user data handling via Firebase.

Wood Quotation App | Flutter, Firebase, Node.js, PDF Generation

Cross-platform app for timber businesses to create, manage, and export detailed quotations with automated cost/GST calculations, professional PDF export, and multi-device login control.

NOTABLE PROJECTS

AI Alarm | Kotlin, Google ML Kit, CameraX, Android SDK

Smart Android alarm app requiring facial interaction (smile + eyes open) via on-device ML to dismiss alarms. Features tamper-proof foreground services, volume lock, WakeLock management, and reliable doze mode triggering.

Finance AI Platform | FastAPI, Python, Scikit-learn, NLP, Bootstrap

AI-powered financial analytics dashboard combining fraud detection (IsolationForest), NLP-based sentiment analysis on financial news, and portfolio rebalancing engine for risk-based investment strategies.

Solar Power Prediction System | Python, Scikit-learn, XGBoost, Streamlit, SQL

Predictive system for solar power generation in off-grid environments with MPPT optimization (18% output increase), interactive Streamlit dashboard, and 24% reduction in energy waste.

IPO Web Platform | FastAPI, Django, JavaScript, REST API, AWS

Full-stack IPO information platform with secure REST API, user registration, IPO application workflows, and optimized database with AWS EC2 deployment.

CERTIFICATIONS

- Data Science Certificate — EXCELR Solutions
- Artificial Intelligence Certificate — EXCELR Solutions
- Data Science Internship (9 months) — EXCELR Solutions
- AI Internship (3 months) — EXCELR Solutions
- SDE Internship (2 months) — Bluestock Fintech
